Dear Bradley Angell,

Thank you for submitting the film 10 YEARS & 9 DAYS to the Forum of the Berlin International Film Festival. We have watched the film with great interest and discussed it carefully in our selection committee. Unfortunately we have not decided in favor of its inclusion in our program.

Please understand that we cannot individually convey our deliberation. Our selection is rather small, and its criteria are manifold. Our decision is by no means a judgement of the quality of the work submitted. Instead, we consider the shape of the program and how the subjects, formal aspects and origins of the selected works fit together.

We are sorry not to be able to give you more favorable news. We would be honored to receive further submissions of yours in the future.

With best regards,

Sophos Sophianos
